Due to our program being approved in December, 2013, we have yet to have a student graduate from our program. Our curriculum is structured so that we expect most students to spend four years at MSU followed by a one year pre-doctoral internship.

Students entering with a master's thesis from another institution may request a waiver of the thesis requirement. It is generally expected that students with an approved thesis waiver will complete the program in the same number of years as students without an approved thesis waiver.

Students entering the program having completed graduate coursework at another institution may request a waiver of specified coursework. A maximum of two courses may be waived due to comparable coursework being completed at another university.
